This is Randy and Vicki Weaver.

Randy and Vicki were married in 1971, and lived with their children until 30 years ago today, when federal agents murdered her as she held their infant daughter.

The day before, agents had murdered their 14 year old son Samuel.

They also shot Randy, smeared his name to the public and put him on trial.

Why did they do this?

Because ATF agent Kenneth Fadeley pressured Randy into selling him two sawed-off shotgun.

Their case was so bad that jurors exonerated Randy of everything but a failure to appear charge.

But the damage was already done.

This is a federal surveillance photo of Vicki shortly before she was murdered.

Snipers were ordered to kill any armed male who left the Weaver home.

When they killed Vicki, she was in her home, holding their infant daughter.

All of this over the length of a shotgun barrel.

The Weaver family did not deserve to be destroyed.

Sadly, they are just another casualty of the federal police state, and yet another example of why it must be dismantled.

Abolish the ATF, the FBI, and every other agency that government uses as weapons against peaceful people.

Rest in peace to Randy, Vicki and Samuel Weaver, and my condolences to the Weaver family.

NOTE: if you advocate for gun control, you de facto advocate for many more families being destroyed by police and federal agents.

Many more children and mothers murdered.

Your advocacy for gun control is advocacy for massive amounts of gun violence against innocent people.
