i can imagine the twins having sneaky sex. for example, when they're on the couch watching a movie with their parents, and they're both under the covers, osamu would slip it in and tell atsumu to be quiet.

or when they're in class and they're sitting all the way in the back, atsumu would jerk osamu off.

or when they're out in public, they would simply go to a hidden place and fuck each other's brains out.
